

Jake Anderson is currently a senior at Calvin College and is a Geology major. Jake will be working alongside both Professor van Dijk and the mentors this year as the FYRES Coordinator. He has worked previously in the GEO Department as a monitor for the Bruce Dice Mineral Museum. He also held a job in the 2012-2013 academic-year as a Weekend Programmer, planning and running some of Buck Fridays' and Nite Life's events. His interests, however, lie in the wild and remote places of world,

where he is an avid climber and expeditionist.

As a FYRES Coordinator, Jake helps prepare for labs through coordinating transportation/equipment, updating the website, and also working on various forms of publicity.
