ACKNOWLEDGMENTS

ACTFL is deeply indebted to the many individuals who contributed to the previous editions of the Proficiency Guidelines

In addition, ACTFL wishes to acknowledge the principal authors and editors of this 3rd Edition of the Proficiency Guidelines: Elvira Swanda, David J. Conrad, and Robert Vicars; and the invaluable contributions of the project consultants: Mahdi Alish, Karen Breina-Sanchez, Ray T. Clifford, Helen Hanly, David Hiple, Judith Liskin-Gaspari, Pardee Lowe, Jr., Cynthia Martin, Karl F. Otto, Jr., Benjamin Rifkin, Mildred Rivera-Martinez, and Erwin Tschirner.

Finally,

SUPERIOR

Speakers at the Superior level are able to communicate with accuracy and fluency in order to participate fully and effectively in conversations on a variety of topics in formal and informal settings from both concrete and abstract perspectives. They discuss their interests and special fields of competence, explain complex matters in detail, and provide lengthy and coherent narrations, all with ease, fluency, and accuracy. They present their opinions on a number of issues of interest to them, such as social and political issues, and provide structured arguments to support these opinions. They are able to construct and develop hypotheses to explore alternative possibilities.

When appropriate, these speakers use extended discourse without unnaturally lengthy hesitation to make their point, even when engaged in abstract elaborations. Such discourse, while coherent, may still be influenced by language patterns other than those of the target language. Superior-level speakers employ a variety of interactive and discourse strategies, such as turn-taking and separating main ideas from supporting information through the use of syntactic, lexical, and phonetic devices.

Speakers at the Superior level demonstrate no pattern of error in the use of basic structures, although they may make sporadic errors, particularly in low-frequency structures and in complex high-frequency structures. Such errors, if they do occur, do not distract the native interlocutor or interfere with communication.

ADVANCED

Speakers at the Advanced level engage in conversation in a clearly participatory manner in order to communicate information on autobiographical topics, as well as topics of community, national, or international interest. The topics are handled concretely by means of narration and description in the major time frames of past, present, and future. These speakers can also deal with a social situation with an unexpected complication. The language of Advanced-level speakers is abundant, the oral paragraph being the measure of Advanced-level length and discourse. Advanced-level speakers have sufficient control of basic structures and generic vocabulary to be understood by native speakers of the language, including those unaccustomed to non-native speech.

Advanced High

Speakers at the Advanced High sublevel perform all Advanced-level tasks with linguistic ease, confidence, and competence. They are consistently able to explain in detail and narrate fully and accurately in all time frames. In addition, Advanced High speakers handle the tasks pertaining to the Superior level but cannot sustain performance at that level across a variety of topics. They may provide a structured argument to support their opinions, and they may construct hypotheses, but patterns of error appear. They can discuss some topics abstractly, especially those relating to their particular interests and special fields of expertise, but in general, they are more comfortable discussing a variety of topics concretely.

Advanced High speakers may demonstrate a well-developed ability to compensate for an imperfect grasp of some forms or for limitations in vocabulary by the confident use of communicative strategies, such as paraphrasing, circumlocution, and illustration. They use precise vocabulary and intonation to express meaning and often show great fluency and ease of speech. However, when called on to perform the complex tasks associated with the Superior level over a variety of topics, their language will at times break down or prove inadequate, or they may avoid the task altogether, for example, by resorting to simplification through the use of description or narration in place of argument or hypothesis.

Advanced Mid

Speakers at the Advanced Mid sublevel are able to handle with ease and confidence a large number of communicative tasks. They participate actively in most informal and some formal exchanges on a variety of concrete topics relating to work, school, home, and leisure activities, as well as topics relating to events of current, public, and personal interest or

INTERMEDIATE

Speakers at the Intermediate level are distinguished primarily by their ability to create with the language when talking about familiar topics related to their daily life. They are able to recombine learned material in order to express personal meaning. Intermediate-level speakers can ask simple questions and can handle a straightforward survival situation. They produce sentence-level language, ranging from discrete sentences to strings of sentences, typically in present time. Intermediate-level speakers are understood by interlocutors who are accustomed to dealing with non-native learners of the language.

Intermediate High

Intermediate High speakers are able to converse with ease and confidence when dealing with the routine tasks and social situations of the Intermediate level. They are able to handle successfully uncomplicated tasks and social situations requiring an exchange of basic information related to their work, school, recreation, particular interests, and areas of competence.

Intermediate High speakers can handle a substantial number of tasks associated with the Advanced level, but they are unable to sustain performance of all of these tasks all of the time. Intermediate High speakers can narrate and describe in all major time frames using connected discourse of paragraph length, but not all the time. Typically, when Intermediate High speakers attempt to perform Advanced-level tasks, their speech exhibits one or more features of breakdown, such as the failure to carry out fully the

Intermediate Low

Speakers at the Intermediate Low sublevel are able to handle successfully a limited number of uncomplicated communicative tasks by creating with the language in straightforward social situations. Conversation is restricted to some of the concrete exchanges and predictable topics necessary for survival in the target-language culture. These topics relate to basic personal informa

NOVICE

Novice-level speakers can communicate short messages on highly predictable, everyday topics that affect them directly. They do so primarily through the use of isolated words and phrases that have been encountered, memorized, and recalled. Novice-level speakers may be difficult to understand even by the most sympathetic interlocutors accustomed to non-native speech.

Novice High

Speakers at the Novice High sublevel are able to handle a variety of tasks pertaining to the Intermediate level, but are unable to sustain performance at that level. They are able to manage successfully a number of uncomplicated communicative tasks in straightforward social situations. Conversation is restricted to a few of the predictable topics necessary for survival in the target language culture, such as basic personal information, basic objects, and a limited number of activities, preferences, and immediate needs. Novice High speakers respond to simple, direct questions or requests for information. They are also able to ask a few formulaic questions.

Novice High speakers are able to express personal meaning by relying heavily on learned phrases or recombinations of these and what they hear from their interlocutor. Their language consists primarily of short and sometimes incomplete sentences in the present, and may be hesitant or inaccurate. On the other hand, since their language often consists of expansions of learned material and stock phrases, they may sometimes sound surprisingly fluent and accurate. Pronunciation, vocabulary, and syntax may be strongly influenced by the first language. Frequent misunderstandings may arise but, with repetition or rephrasing, Novice High speakers can generally be understood by sympathetic interlocutors used to non-natives. When called on to handle a variety of topics and perform functions pertaining to the Intermediate level, a Novice High speaker can sometimes respond in intelligible sentences, but will not be able to sustain sentence-level discourse.

Novice Mid

Speakers at the Novice Mid sublevel communicate minimally by using a number of isolated words and memorized phrases limited by the particular context in which the language has been learned. When responding to direct questions, they may say only two or three words at a time or give an occasional stock answer. They pause frequently as they search for simple vocabulary or attempt to recycle their own and their interlocutor's words. Novice Mid speakers may be understood with difficulty even by sympathetic interlocutors accustomed to dealing with non-natives. When called on to handle topics and perform functions associated with the Intermediate level, they frequently resort to repetition, words from their native language, or silence.

Novice Low

Speakers at the Novice Low sublevel have no real functional ability and, because of their pronunciation, may be unintelligible. Given adequate time and familiar cues, they may be able to exchange greetings, give their identity, and name a num-

Preface

The ACTFL Proficiency Guidelines 2012– Writing describe five major levels of proficiency: Distinguished, Superior, Advanced, Intermediate, and Novice. The description of each major level is representative of a specific range of abilities. Together these levels form a hierarchy in which each level subsumes the skills of the level below it. The descriptions of proficiency levels are:

ž l
a

ADVANCED

Writers at the Advanced level are characterized by the ability to write routine informal and some formal correspondence, as well as narratives, descriptions, and summaries of a factual nature. They can narrate and describe in the major time frames of past, present, and future, using paraphrasing and elaboration to provide clarity. Advanced-level writers produce connected discourse of paragraph length and structure. At this level, writers show good control of the most frequently used structures and generic vocabulary, allowing them to be understood by those unaccustomed to the writing of non-natives.

Advanced High

Writers at the Advanced High sublevel are able to write about a variety of topics with significant precision and detail. They can handle informal and formal correspondence according to appropriate conventions. They can write summaries and reports of a factual nature. They can also write extensively about topics relating to particular interests and special areas of competence, although their writing tends to emphasize the concrete aspects of such topics. Advanced High writers can narrate and describe in the major time frames, with solid control of aspect. In addition, they are able to demonstrate the ability to handle writing tasks associated with the Superior level, such as developing arguments and constructing hypotheses, but are not able to do this all of the time; they cannot produce Superior-level writing consistently across a variety of topics treated abstractly or generally. They have good control of a range of grammatical structures and a fairly wide general vocabulary. When writing at the Advanced level, they often show remarkable ease of expression, but under the demands of Superior-level writing tasks, patterns of error appear. The linguistic limitations of Advanced High writing may occasionally distract the native reader from the message.

Advanced Mid

Writers at the Advanced Mid sublevel are able to meet a range of work and/or academic writing needs. They demonstrate the ability to narrate and describe with detail in all major time frames with good control of aspect. They are able to write straightforward summaries on topics of general interest. Their writing exhibits a variety of cohesive devices in texts up to several paragraphs in length. There is good control of the most frequently used target-language syntactic structures and a range of general vocabulary. Most often, thoughts are expressed clearly and supported by some elaboration. This writing incorporates organizational features both of the target language and the writer's first language and may at times resemble oral discourse. Writing at the Advanced Mid sublevel is understood readily by natives not used to the writing of non-natives. When called on to perform functions or to treat issues at the Superior level, Advanced Mid writers will manifest a decline in the quality and/or quantity of their writing.

Advanced Low

Writers at the Advanced Low sublevel are able to meet basic work and/or academic writing needs. They demonstrate the ability to narrate and describe in major time frames with some control of aspect. They are able to compose simple summaries on familiar topics. Advanced Low writers are able to combine and link sentences into texts of paragraph length and structure. Their writing, while adequate to satisfy the criteria of the Advanced level, may not be substantive. Writers at the Advanced Low sublevel demonstrate the ability to incorporate a limited number of cohesive devices, and may resort to some redundancy and awkward repetition. They rely on patterns of oral discourse and the writing style of their first language. These writers demonstrate minimal control of common structures and vocabulary associated with the Advanced level. Their writing is understood by natives not accustomed to the writing of non-natives, although some additional effort may be required in the reading of the text. When attempting to perform functions at the Superior level, their writing will deteriorate significantly.

ACTFL PROFICIENCY GUIDELINES 2012 – LISTENING

Preface

The ACTFL Proficiency Guidelines 2012– Listening

describe five major levels of proficiency: Distinguished, Superior, Advanced, Intermediate, and Novice. The description of each major level is representative of a specific range of abilities. Together, these levels form a hierarchy in which each level subsumes all lower levels. The major levels Advanced, Intermediate, and Novice are divided into High, Mid, and Low sublevels. The subdivision of the Advanced Level into High, Mid, and Low is new. This makes the Listening descriptions parallel to the other skill-level descriptions.

Listening is an interpretive skill. Listening comprehension is based largely on the amount of information listeners can retrieve from what they hear and the inferences and connections that they can make. By describing the tasks that listeners can perform with different types of oral texts and under different types of circumstances, the Listening Proficiency Guidelines describe how listeners understand oral discourse. The Guidelines do not describe how listening skills develop, how one learns to listen, nor the actual cognitive processes involved in the activity. Rather, they are intended to describe what listeners understand from what they hear.

These Guidelines apply to listening that is either Interpretive (non-participative, overheard) or Interpersonal (participative).

The written descriptions of listening proficiency are accompanied online by authentic speech samples and the functional listening tasks associated with each major level.

The ACTFL Proficiency Guidelines 2012 – Listening may be used for non-profit, educational purposes only, provided that they are reproduced in their entirety, with no alterations, and with credit to ACTFL.

DISTINGUISHED

At the Distinguished level, listeners can understand a wide variety of forms, styles, and registers of speech on highly specialized topics in language that is tailored to different audiences. Listeners at the Distinguished level can understand language such as that found in classical theater, art films, professional symposia, academic debates, public policy statements, literary readings, and most jokes and puns. They are able to comprehend implicit and inferred information, tone, and point of view, and can follow highly persuasive arguments. They are able to understand unpredictable turns of thought related to sophisticated topics. In addition, their listening ability is enhanced by a broad and deep understanding of cultural references and allusions. Listeners at the Distinguished level are able to appreciate the richness of the spoken language.

Distinguished-level listeners understand speech that can be highly abstract, highly technical, or both, as well as speech that contains very precise, often low-frequency vocabulary and complex rhetorical structures. At this level, listeners comprehend oral discourse that is lengthy and dense, structurally complex, rich in cultural reference, idiomatic and colloquial. In addition, listeners at this level can understand information that is subtle or highly specialized, as well as the full cultural significance of very short texts with little or no linguistic redundancy.

Distinguished-level listeners comprehend language from within the cultural framework and are able to understand a speaker's use of nuance and subtlety. However, they may still have difficulty fully understanding certain dialects and nonstandard varieties of the language.

SUPERIOR

At the Superior level, listeners are able to understand speech in a standard dialect on a wide range of familiar and less familiar topics. They can follow linguistically complex extended discourse such as that found in academic and professional settings, lectures, speeches and reports. Comprehension is no longer limited to the listener's familiarity with subject matter, but also comes from a command of the language that is supported by a broad vocabulary, an understanding of more complex structures and linguistic experience within the target culture. Superior listeners can understand not only what is said, but sometimes what is left unsaid; that is, they can make inferences.

Superior-level listeners understand speech that typically uses precise, specialized vocabulary and complex grammatical structures. This speech often deals abstractly with topics in a way that is appropriate for academic and professional audiences. It can be reasoned and can contain cultural references.

INTERMEDIATE

At the Intermediate level, listeners can understand information conveyed in simple, sentence-length speech on familiar or everyday topics. They are generally able to comprehend one utterance at a time while engaged in face-to-face conversations or in routine listening tasks such as understanding highly contextualized messages, straightforward announcements, or simple instructions and directions. Listeners rely heavily on redundancy, restatement, paraphrasing, and contextual clues.

Intermediate-level listeners understand speech that conveys basic information. This speech is simple, minimally connected, and contains high-frequency vocabulary.

Intermediate-level listeners are most accurate in their comprehension when getting meaning from simple, straightforward speech. They are able to comprehend messages found in highly familiar everyday contexts. Intermediate listeners require a controlled listening environment where they hear what they may expect to hear.

Intermediate High

At the Intermediate High sublevel, listeners are able to understand, with ease and confidence, simple sentence-length speech in basic personal and social contexts. They can derive substantial meaning from some connected texts typically understood by Advanced-level listeners although there often will be gaps in understanding due to a limited knowledge of the vocabulary and structures of the spoken language.

Intermediate Mid

At the Intermediate Mid sublevel, listeners are able to understand simple, sentence-length speech, one utterance at a time, in a variety of basic personal and social contexts. Comprehension is most often accurate with highly familiar and predictable topics although a few misunderstandings may occur. Intermediate Mid listeners may get some meaning from oral texts typically understood by Advanced-level listeners.

Intermediate Low

At the Intermediate Low sublevel, listeners are able to understand some information from sentence-length speech, one utterance at a time, in basic personal and social contexts, though comprehension is often uneven. At the Intermediate Low sublevel, listeners show little or no comprehension of oral texts typically understood by Advanced-level listeners.

NOVICE

At the Novice level, listeners can understand key words, true aural cognates, and formulaic expressions that are highly contextualized and highly predictable, such as those found in introductions and basic courtesies.

Novice-level listeners understand words and phrases from simple questions, statements, and high-frequency commands. They typically require repetition, rephrasing, and/or a slowed rate of speech for comprehension. They rely heavily on extralinguistic support to derive meaning.

Novice-level listeners are most accurate when they are able to recognize speech that they can anticipate. In this way, these listeners tend to recognize rather than truly comprehend. Their listening is largely dependent on factors other than the message itself.

Novice High

At the Novice High sublevel, listeners are often but not always able to understand information from sentence-length speech, one utterance at a time, in basic personal and social contexts where there is contextual or extralinguistic support, though comprehension may often be very uneven. They are able to understand speech dealing with areas of practical need such as highly standardized messages, phrases, or instructions, if the vocabulary has been learned.

Novice Mid

At the Novice Mid sublevel, listeners can recognize and begin to understand a number of high-frequency, highly contextualized words and phrases including aural cognates and borrowed words. Typically, they understand little more than one phrase at a time, and repetition may be required.

Novice Low

At the Novice Low sublevel, listeners are able occasionally to recognize isolated words or very high-frequency phrases when those are strongly supported by context. These listeners show virtually no comprehension of any kind of spoken message, not even within the most basic personal and social contexts.

Preface

The ACTFL Proficiency Guidelines 2012– Reading describe five major levels of proficiency: Distinguished, Superior, Advanced, Intermediate, and Novice. The description of each major level is representative of a specific range of abilities.

DISTINGUISH

ADVANCED

At the Advanced level, readers can understand the main idea and supporting details of authentic narrative and descriptive texts. Readers are able to compensate for limitations in their lexical and structural knowledge by using contextual clues. Comprehension is

INTERMEDIATE

At the Intermediate level, readers can understand information conveyed in simple, predictable, loosely connected texts. Readers rely heavily on contextual clues. They can most easily understand information if the format of the text is familiar, such as in a weather report or a social announcement.

Intermediate-level readers are able to understand texts that convey basic information such as that found in announcements, notices, and online bulletin boards and forums. These texts are not complex and have a predictable pattern of presentation. The discourse is minimally connected and primarily organized in individual sentences and strings of sentences containing predominantly high-frequency vocabulary.

Intermediate-level readers are most accurate when getting meaning from simple, straightforward texts. They are able to understand messages found in highly familiar, everyday contexts. At this level, readers may not fully understand texts that are detailed or those texts in which knowledge of language structures is essential in order to understand sequencing, time frame, and chronology.

Intermediate High

At the Intermediate High sublevel, readers are able to understand fully and with ease short, non-complex texts that convey basic information and deal with personal and social topics to which the reader brings personal interest or knowledge. These readers are also able to understand some connected texts featuring description and narration although there will be occasional gaps in understanding due to a limited knowledge of the vocabulary, structures, and writing conventions of the language.

Intermediate Mid

At the Intermediate Mid sublevel, readers are able to understand short, non-complex texts that convey basic information and deal with basic personal and social topics to which the reader brings personal interest or knowledge, although some misunderstandings may occur. Readers at this level may get some meaning from short connected texts featuring description and narration, dealing with familiar topics.

Intermediate Low

At the Intermediate Low sublevel, readers are able to understand some information from the simplest connected texts dealing with a limited number of personal and social needs, although there may be frequent misunderstandings. Readers at this level will be challenged to derive meaning from connected texts of any length.

NOVICE

At the Novice level, readers can understand key words and cognates, as well as formulaic phrases that are highly contextualized.

Novice-level readers are able to get a limited amount of information from highly predictable texts in which the topic or context is very familiar, such as a hotel bill, a credit card receipt, or a weather map. Readers at the Novice level may rely heavily on their own background knowledge and extralinguistic support (such as the imagery on the weather map or the format of a credit card bill) to derive meaning.

Readers at the Novice level are best able to understand a text when they are able to anticipate the information in the text. At the Novice level, recognition of key words, cognates, and formulaic phrases makes comprehension possible.

Novice High

At the Novice High sublevel, readers can understand, fully and with relative ease, key words and cognates, as well as formulaic phrases across a range of highly contextualized texts. Where vocabulary has been learned, they can understand predictable language and messages such as those found on train schedules, roadmaps, and street signs. Readers at the Novice High sublevel are typically able to derive meaning from short, non-complex texts that convey basic information for which there is contextual or extralinguistic support.

Novice Mid

At the Novice Mid sublevel, readers are able to recognize the letters or symbols of an alphabetic or syllabic writing system or a limited number of characters in a character-based language. They can identify a number of highly contextualized words and phrases including cognates and borrowed words but rarely understand material that exceeds a single phrase. Rereading is often required.

Novice Low

At the Novice Low sublevel, readers are able to recognize a limited number of letters, symbols or characters. They are occasionally able to identify high-frequency words and/or phrases when strongly supported by context.
